

Publishing Services and EBook Packages

MY EBooks gives self-publishing authors a bespoke, powerful E-publishing package with a world-beating distribution service built in - to ensure your work benefits from the greatest exposure and the widest range of revenue streams on the market.

Standard EBook Publishing package £110 plus vat

MY EBooks offers best-in-class conversion from source files created in MS Word, Adobe InDesign and RTF - or we can create your EBook by scanning printed documents using our new state of the art OCR service (POA).

Excitingly, this makes possible for the first time the creation of EBooks from illustrated printed documents that don't exist in digital form.

Our Standard package offers basic format conversion from Microsoft Word to the **Kindle** Ebook format together with distribution on countless UK & US Ebook stores, including Amazon, WH Smiths, Books on Board, Tesco Online, Borders, Waterstones and lots more.

Premier EBook Publishing package £200 plus Vat

The Premier Package gives you all of the above with the addition of even more powerful marketing and distribution tools including:

Ebook conversion to all formats, upload and distribution to all Ebook retailers internationally and sale through web stores, mobile phone providers, libraries, universities and other institutions pertinent to your subject matter (see our sample retailer list below).

Special features include an active table of contents and an index for ease of navigation, professionally written marketing text about your book, key words for added sales so that websites can find your book and recommend it to new readers, dedicated, bespoke author webpages and sample chapters.

Terms and conditions:

- Book size is unlimited for text only
- Books with illustrations, scientific tables or graphs are dealt with on a bespoke price basis, determined by the samples you supply.
- We supply and publish within four weeks of receipt of basic files for conversion.

Call **Jonathan Miller** on 01992 586 279 or 07790035484 for a chat about how MY EBooks can enhance your ebook publishing revenue. Don't worry - there's no obligation whatsoever!

The M-Y Books Worldwide Guide to EBooks Retailers

Introduction

Here's an overview of some of the main EBook retailers we supply, followed by a list of our comprehensive distribution channels - a list that's constantly growing as we strive to embrace and exploit new formats and retail channels as they emerge.

Professional EBook retailers (as opposed to the plethora of 'pirate' or unaccredited amateur websites) offer the most secure place for selling EBooks; it's only through these that a publisher can be certain that their books can't be sold without authorisation or copied/distributed without payment. With that in mind, MY EBooks only deals with partners we know and trust and who are held in a binding legal agreement to honour the copy protection of each book sold. In addition our entire data conversion process is handled and checked in-house - so we can offer a totally secure environment for all titles we convert - an increasingly important factor given the alarming growth of internet piracy.

Covering all formats, outlets and countries worldwide, MY EBooks guarantees its authors/publishers the deepest and widest international distribution available anywhere.

Amazon

In November 2007, Amazon launched Amazon Kindle, an EBook reader that's incredibly easy to read, has impressive battery life - thanks to its 'E-Ink' screen technology - and downloads content wirelessly over 'Whispernet'. Its success has been unprecedented and, as of March 2011, the Kindle library offers over 850,000 titles.

Although they're considered to be one of the largest EBook retailers in the world they only cover the USA, UK and Germany at the moment.

As one of Amazon's larger publishers, we at MY EBooks are in a position to take advantage on your behalf of the many special marketing opportunities that aren't available to self-publishing authors or smaller publishers. These include the careful creation of key words and marketing text as well as tag words and author pages to ensure that EBooks published through MY EBooks maintain a strong presence and are found (and bought) by

exactly the right audience.

Other Amazon facts

- EBooks sold on Amazon can *only* be read by its Kindle Ebook reader or on a computer, phone or tablet equipped with Amazon's Kindle software
- It has a market share of 35-40 %
- The new Kindle Fire offers a reading experience similar to that of the Ipad for a fraction of the cost. At MY EBooks, we're ready with 'Kindle Gen' authoring tools to meet conversion demands for this format, which will bring new opportunities for all titles - and particularly for those with complex and colour formats.
