

## Creative & Editorial Services

Some of the services described here are available as part of our many publishing packages (see separate info sheet) – others are only available as separate, additional services on an ad hoc basis.

### Cover Design

From £180

- Readers DO judge a book by its cover! That's why it's vital that the design for your book is a perfect fit within the marketplace classified by genre or subject. The same goes for a book's graphic design. It must grab the attention of the readership you're after whether on a shelf at a bookshop or online bookstore
- A professional, eye-catching and appropriate cover can make a huge difference to your book's chances – and you might be pleasantly surprised by the price
- We provide bespoke photography, illustrations and graphic design to the highest standards. We have handled these areas for some of the biggest authors in the world covering a wide variety of subjects from fiction to business including complex interior layouts involving illustrations and text

### eBook Conversion

From £100

- We can convert your book to all the popular eBook formats for publishing on all the major eBook retailers
- Unlike many eBook conversion companies, which are automated, all our eBooks are converted by real people to ensure that the finished product is of the highest quality and compatible with all eBook reading systems

### eBook & Print-on-Demand Services for Authors

Price on Application

#### Proof Reading

We'll check and correct your MS for typos, spelling errors, grammar and punctuation issues, plot/character inconsistencies and so on. Of course, all changes are 'tracked' so you can accept or reject our suggestions! In the end, the decision is entirely yours

#### Editing

Sometimes this means re-ordering chapters and rewriting entire passages; other times it's simply a matter of tidying up grammar and ironing out inconsistencies in style. The 'depth' of editing is something we'll discuss with you before we begin – and, of course, only if you agree that it's needed!

#### Reader's Report

As the name of the service suggests, one of the team reads through your manuscript and provides a report with suggestions and an indication of the amount/depth of proof-reading and editing we'd recommend

#### Ghost Writing

Not everyone's an author. Maybe you simply have a story to tell and you'd rather someone else put the words together – or simply took your rough outline version and turned it into a polished manuscript... No problem. Talk to us about the book you have in mind and we'll make it a reality.
